

Bay Lobster Farm - Glass Roof

Bay Lobster Farm

WORKS COMPLETED:

2020

CLIENT:

Bay Lobster Farm

LOCATION:

Tweed Heads, New South Wales

PRODUCT COVERAGE:

Stage 1 - Approx. 2,500sqm

Stage 2 - Upcoming

APPROVED INSTALLER:

Hurcs

PRODUCT USED:

VersEseal Rapid Build &
VersEseal Top Coat

Imagine a vast glass roof, spanning over 20,000 square meters, guarding the precious inhabitants of Bay Lobster Farm in Tweed Heads, New South Wales. This ambitious project presented unique challenges, and only one solution proved capable of meeting them - VersEseal.

Bay Lobster Farm's colossal glass roof suffered from persistent leaks. Traditional re-roofing was not only prohibitively expensive but also threatened substantial facility downtime. What's more, this facility is a quarantine center, making water quality a critical concern. The client needed an affordable, swift, and dependable solution to maintain seamless operations and uphold stringent water quality standards.

VersEseal provided a comprehensive waterproofing solution featuring VersEseal Rapid Build and VersEseal Top Coat in white. This powerful combination not only delivers outstanding waterproofing but also has exceptional heat reflection properties, vital for maintaining stable conditions within the facility.

Key Benefits:

- **Cost-Effective:** VersEseal emerged as a cost-effective alternative, representing less than 30% of the price of re-roofing.
- **Minimal Disruption:** Our VersEseal application allowed for resealing without disrupting facility operations, ensuring uninterrupted production.
- **AS4020 Potable Water Certification:** We prioritize water quality, and VersEseal products meet the rigorous AS4020 standards for potable water certification. This certification was instrumental in ensuring that the facility's water remained safe and pure.

The Bay Lobster Farm project exemplifies the remarkable versatility and reliability of VersEseal Waterproofing Membrane. Whether it's sealing vast glass roofs, safeguarding against leaks, or ensuring potable water standards, VersEseal rises to the challenge, delivering cost-effective, high-performance solutions. Join the ever-growing list of satisfied clients who have experienced the VersEseal advantage. Trust in VersEseal for waterproofing excellence and water quality assurance in critical environments like quarantine facilities.

We look forward to working with the team on the upcoming stage 2 in 2025.
