

Large Scale Agricultural Sheds

Large Agricultural Sheds

WORKS COMPLETED:

2021 / 2022

CLIENT:

McLean Farms

LOCATION:

Pittsworth, Queensland

PRODUCT COVERAGE:

Approx 22,000 lineal metres

TYPE OF CONTRACT:

Material supply & application

PRODUCT USED:

VersEseal Rapid Build & VersEseal Top Coat

When water ingress threatened the operational integrity of the expansive livestock sheds at McLean Farms in Pittsworth, Queensland, a swift and effective solution was imperative. As the trusted manufacturer of VersEseal liquid rubber waterproofing membrane, we were called upon to safeguard this critical agricultural infrastructure.

Our Solution: We leveraged our VersEseal Rapid Build, a cutting-edge waterproofing membrane, in combination with geotextile technology to swiftly bridge gaps and seal joints effectively. This dynamic duo created a durable barrier against water intrusion, ensuring the continued operation of the sheds without any disruption to the livestock.

The Finishing Touch: To enhance the thermal control of the internal space and reflect excessive heat, we applied VersEseal Top Coat in white over the joint repairs. This not only sealed the deal on waterproofing but also ensured optimal temperature regulation within the sheds.

Project Highlights:

- Area covered: A staggering 22,000 linear meters
- Construction period spanning 2021 to 2022
- VersEseal Rapid Build and VersEseal Top Coat in white delivered outstanding results
- Progressive installation across multiple composite panel livestock sheds
- Geotextile technology played a crucial role in bridging gaps quickly and effectively

Choose VersEseal for Your Waterproofing Needs: VersEseal's track record of excellence extends to McLean Farms and beyond. Our waterproofing solutions are designed to tackle the toughest challenges, offering durability, speed, and environmental friendliness. When you need proven results and unbeatable performance, VersEseal is your trusted partner in waterproofing.

Experience the VersEseal Advantage. Waterproof with Confidence.
